DETAILED ACTION

1. Amendment filed on August 30, 1999 has been entered.
2. Claims 1-4, 6-22 are presented for examination.

Drawings

3. The drawings were received on August 07, 2003. These drawings are acceptable.

Reasons for Allowance

4. Claims 1-4, 6-22 are allowed.

The following is an examiner's statement of reasons for allowance:

Claims 1-4, 6-22 include allowable subject matter since the prior art made of record and considered pertinent to the applicant's disclosure does not teach or suggest the claimed limitations. Yamauchi et al. (U.S. Patent No. 5,063,425), and others, does not teach the claimed invention having a control method of non-volatile memory cell comprising a control unit, and the control unit comprises a first electrode for receiving a control voltage to control conductivity of the control unit, and a second electrode for receiving a first predetermined voltage, a second predetermined voltage, and a third predetermined voltage to adjust charges stored in the parasitic capacitor so that corresponding data represented by amounts of the charges are stored as shown in Figure 3, 46.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
